Draw Your Dream House Worksheet: Labeled Rooms and Feature Checklist

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

Draw Your Dream House Worksheet: Labeled Rooms and Feature Checklist

Worked example / complete source key

A student sketches an L-shaped house with four labeled rooms: sleeping room, cooking and eating room, washing room, and living room. They tick four features: reading nook, balcony, garden, and skylight. They write roof garden in the margin with a line to the roof and window seat inside the living room. Check the worksheet against the room prompts and feature checklist.

Answer: The worksheet satisfies all four room prompts because each required room type has one clear label. It satisfies the feature checklist because four features are ticked and each is shown or annotated: reading nook inside the living room, balcony on the outer wall, garden in the margin with a line to the yard, and skylight marked on the roof. The roof garden and window seat annotations are additional annotations, not substitutes for the ticked features. Exterior and interior annotations are both present. The labels are readable at the baseline-to-midline size. The worksheet is complete for this task.
