Draw Your Favorite Animal Worksheet: Feature and Habitat Prompts

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

Draw Your Favorite Animal Worksheet: Feature and Habitat Prompts

Worked example / complete source key

A learner draws a rabbit sitting in grass. The drawing shows two long ears, a round tail, four legs, and fur. Labels point to ears, tail, legs, and fur. The habitat sentence says 'It lives in a grassy field,' and grass is drawn around the rabbit. The checklist marks body covering as fur, limbs as four legs, and environment as grass.

Answer: The worksheet is complete because the animal has three or more labeled features, each label line points to one feature, the habitat sentence matches the drawn grass, and the checklist covers body covering, limbs, and environment. The drawing is accepted even if the rabbit's shape is simple, because the labels and habitat are clear and consistent.
