Draw Your Halloween Costume Worksheet: Design Frame and Detail Prompts

Original tasks 1, 2, 3 / complete keys

Task 1

A learner measures the outline as 10 cm tall and 5 cm wide (hypothetical example). They tick paper and markers, then add glue. What is the materials total?

Answer: 3

Reason: Two ticked items plus one extra item equals three. The arithmetic is simple addition: 2 + 1 = 3.

Check: Recount the ticked items (paper, markers) and the extra item (glue). Confirm the written total matches 3.

Task 2

A learner labels Accessories as 'tail' but draws a star in the detail box. Is this acceptable? Explain using the convention.

Answer: No, the sketch does not match the label. The learner should draw a tail shape or change the label to 'star'.

Reason: The rubric requires each label to match its detail sketch. A star does not show a tail, so the pair is inconsistent.

Check: Read the label and look at the sketch. Ask whether a peer could identify the object from the sketch alone.

Task 3

A hypothetical worksheet has 6 detail boxes and each sheet holds 3 boxes. How many sheets are needed?

Answer: 2 sheets

Reason: Divide the number of boxes by boxes per sheet: 6 ÷ 3 = 2. Units are sheets.

Check: Multiply sheets by boxes per sheet: 2 × 3 = 6, which matches the number of boxes.

Original tasks 4 / complete keys

Task 4

A learner writes 'mask with ears' and draws a headband with two triangles. Is this a valid alternative? Why?

Answer: Yes, it is valid because the label matches the sketch and the convention allows alternatives.

Reason: The mask prompt does not require a full face cover. A headband with ears is a valid mask design if labeled clearly.

Check: Confirm the label includes 'mask' and the sketch shows ears on a headband. Check that the reviewer can explain why it is acceptable.

Draw Your Halloween Costume Worksheet: Design Frame and Detail Prompts

Task 1 / answers

Costume design / selected 12 x 6 cm outline at 1:1 / learner measurements remain their own

GIVEN / paper and markers ticked, plus glue

☑ paper

☑ markers

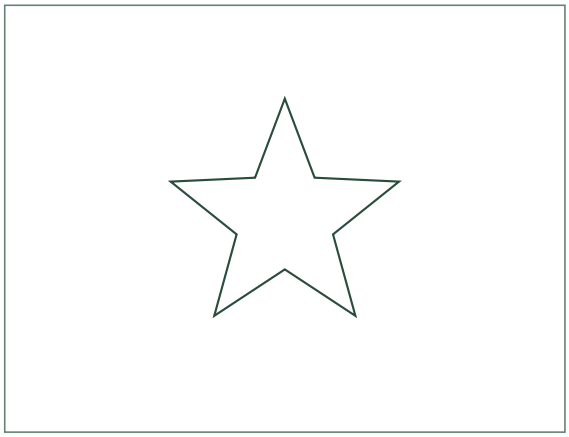

Extra: glue / 2 + 1 = 3 materials

Draw Your Halloween Costume Worksheet: Design Frame and Detail Prompts

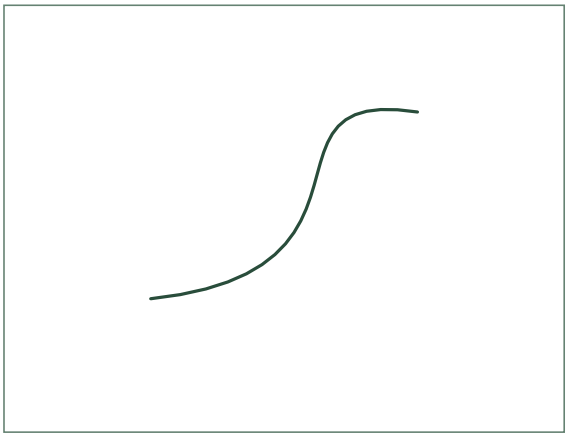

Task 2 / answers

Costume design / selected 12 x 6 cm outline at 1:1 / learner measurements remain their own

GIVEN / label tail, star sketch

FIX / label tail, tail sketch

The original label and star do not match. One valid correction is a tail sketch; another is to rename the label star. Both choices are explicit, not a rule banning costume alternatives.

Draw Your Halloween Costume Worksheet: Design Frame and Detail Prompts

Task 3 / answers

Costume design / selected 12 x 6 cm outline at 1:1 / learner measurements remain their own

SHEET 1

Detail box 1

Detail box 2

Detail box 3

SHEET 2

Detail box 4

Detail box 5

Detail box 6

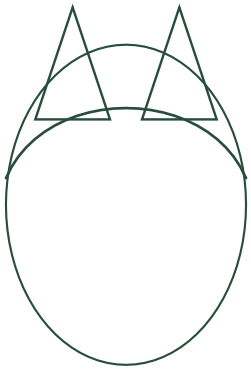

Six requested boxes / three per sheet = 2 sheets. These are two nominal sheet diagrams on this answer page, not a claim that the physical PDF page is two sheets.

Draw Your Halloween Costume Worksheet: Design Frame and Detail Prompts

Task 4 / answers

Costume design / selected 12 x 6 cm outline at 1:1 / learner measurements remain their own

Label: mask with ears

The headband and two triangles match the written choice, so this is a valid alternative. Handwriting style is not graded; the test is whether label and actual detail agree.

Source rubric / reflection

- [ ] Outline convention is visible: oval head, rounded rectangle body, straight tube limbs, feet at baseline.
- [ ] Each labeled prompt (Mask, Accessories, Colors) has a word or short phrase and a matching detail sketch.
- [ ] Colors are named with at least two color words.
- [ ] Materials checklist has ticked items, one extra item, and a correct total.
- [ ] Measured outline height and width are recorded in centimeters on the margin.
- [ ] Valid alternatives are accepted only for costume details (mask, accessories, colors), not for the body outline convention; the oval head, rounded rectangle body, and tube limbs must remain.

Reflection: What did you check, what did you change, and what will you try next?
