Cross-Contour Apple Drawing: Wrapping Lines Around Form

Original task 1 / independent drawing and calculation

Task 1

Draw an apple outline 5 cm wide and 6 cm tall with a stem dimple at the top center. Add three cross-contour lines. Make the top line dip toward the dimple and the bottom line curve gently around the base. Check that the top two lines are closer together than the bottom two.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Cross-Contour Apple Drawing: Wrapping Lines Around Form

Original task 2 / independent drawing and calculation

Task 2

In a practice box 7 cm by 5 cm, draw only the upper-left section of an apple, including part of the stem dimple. Add two cross-contour lines that enter from the left edge and curve toward the dimple. Check that neither line crosses the outer contour.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Cross-Contour Apple Drawing: Wrapping Lines Around Form

Original task 3 / independent drawing and calculation

Task 3

Draw an apple with four cross-contour lines. Use a hypothetical spacing of 1 cm near the dimple and 2 cm near the base. Check that the lines do not become straight in the middle of the apple. If one line is straight, redraw it with a gentle curve.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Cross-Contour Apple Drawing: Wrapping Lines Around Form

Original task 4 / independent drawing and calculation

Task 4

Draw two apples side by side. On the first, use three cross-contour lines; on the second, use five. Both should show a stem dimple and curved surface lines. Check that the five-line apple still has tighter spacing near the dimple than near the base.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
