Dog Contour Drawing: Single-Line Edge Practice

Original task 1 / independent drawing and calculation

Task 1

Draw the muzzle profile of a dog in one continuous line from the bridge of the nose to the front of the lips. Do not lift the pencil.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Dog Contour Drawing: Single-Line Edge Practice

Original task 2 / independent drawing and calculation

Task 2

In a measured box, draw the outer ear edge blind (without looking at the paper), then draw it again while looking. Note one difference.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Dog Contour Drawing: Single-Line Edge Practice

Original task 3 / independent drawing and calculation

Task 3

Trace the front leg edge of a dog from body to paw in one line. Measure the drawn edge and the reference edge with the same ruler and record both lengths.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Dog Contour Drawing: Single-Line Edge Practice

Original task 4 / independent drawing and calculation

Task 4

Choose one dog edge, draw it once from memory, then draw it again while looking at the reference. Label both lines with consistent handwriting.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
