Plant Contour Drawing: Continuous Line and Blind Contour Practice

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

Plant Contour Drawing: Continuous Line and Blind Contour Practice

Worked example / complete source key

A student draws a potted plant in continuous contour for three minutes. The line lifts twice, once at a leaf tip and once at the pot base. The student wrote the convention 'one continuous line, no lifting.' Apply the line-quality check and state one fix.

Answer: The drawing fails the continuity item because the line lifted twice. The convention required no lifting. One fix is to slow down at leaf tips and plan the return path before moving. The student should mark both breaks and redraw only the affected sections without lifting.
