Tattoo Practice Plate: Linework, Shading, and Stencil Transfer Drills

Original task 1 / independent drawing and calculation

Task 1

Draw three horizontal lines, each 4 cm long, spaced 1 cm apart. Aim for equal thickness and clean ends.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Tattoo Practice Plate: Linework, Shading, and Stencil Transfer Drills

Original task 2 / independent drawing and calculation

Task 2

Create a shading strip 8 cm long and 2 cm wide, fading from dark at the left to light at the right.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Tattoo Practice Plate: Linework, Shading, and Stencil Transfer Drills

Original task 3 / independent drawing and calculation

Task 3

Draw a 3 cm equilateral triangle on thin paper. Rub soft graphite over the back of the paper, place it graphite-side down on a blank area, and trace the outline with a ballpoint pen using light pressure to transfer it.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Tattoo Practice Plate: Linework, Shading, and Stencil Transfer Drills

Original task 4 / independent drawing and calculation

Task 4

Draw a 5 cm gentle curve bending about 2 cm. Repeat three times, trying to keep the curve smooth and the thickness even.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
