Traditional Tattoo Drawing Practice: Bold Outline and Flash Motifs

Original worked example / unchanged complete key

Prompt: Draw an original anchor motif in a 60 mm by 60 mm cell using a 2 mm outline and 1 mm detail line. Add one solid black fill and three parallel hatch lines. Check symmetry and spacing.

Answer: The anchor is centred with a vertical shaft, a crossbar at one-third from the top, and two symmetrical bottom arcs. The outline is 2 mm, interior lines 1 mm. One small area is solid black; three hatch lines are spaced 3 mm apart. The motif fits within the cell with 10 mm margins. Symmetry check by folding shows less than 1 mm deviation. Readability from one metre is clear.
