Negative Space Hair Drawing: See Gaps, Draw Silhouette

Original task 1 / independent drawing and calculation

Task 1

On a blank 80 mm by 80 mm square, draw two enclosed gaps: one 8 mm wide and 5 mm tall, another 6 mm wide and 9 mm tall. Label each with measurements.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Negative Space Hair Drawing: See Gaps, Draw Silhouette

Original task 2 / independent drawing and calculation

Task 2

A silhouette has a dip 12 mm deep from a straight line connecting two outer points. Draw the negative shape of the dip and mark its depth.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Negative Space Hair Drawing: See Gaps, Draw Silhouette

Original task 3 / independent drawing and calculation

Task 3

In a 40 mm by 40 mm comparison box, sketch a positive hair cluster on the left and its gaps on the right. Measure one gap width on each side and state the difference.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Negative Space Hair Drawing: See Gaps, Draw Silhouette

Original task 4 / independent drawing and calculation

Task 4

Using the convention that x-height is baseline to midline, draw a letter 'a' with x-height 5 mm and a letter 'o' with x-height 5 mm. Then draw one hair gap 5 mm tall beside them.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
