Anime Face Emotions: Mix Eyes, Brows, and Mouth on a Fixed Template

Original worked example / unchanged complete key

Prompt: On a fixed anime face template with a midline at 6 cm from the top and an eye baseline 1 cm below the midline, combine round eyes, raised inner brows, and a small smile. State the x-height and the emotion word.

Answer: The x-height is 1 cm (baseline to midline). Round eyes with raised inner brows and a small smile reads as surprise. The head shape, nose, and ear stay fixed; only the three parts vary.
