Cloud Drawing Type Worksheet: Sketch and Label Cumulus, Stratus, and Cirrus

Original tasks 1, 2 / independent work

Task 1

Sketch a cumulus cloud using a wide base and three to five connected rounded lobes. Draw a label box below it and write the cloud type.

Task 2

Sketch a stratus cloud as a wide, flat band about three times as wide as it is tall, with mostly straight top and bottom edges. Label it below.

Cloud Drawing Type Worksheet: Sketch and Label Cumulus, Stratus, and Cirrus

Original tasks 3, 4 / independent work

Task 3

Sketch a cirrus cloud using two or three long, thin, curved strokes that taper at the ends and do not close into a blob. Label it below.

Task 4

Read this description and draw the matching cloud, then label it: 'a flat, wide band with a mostly straight top and small soft bumps at the ends.'
