Portrait Proportion Practice on Blank Head Outlines

Original tasks 1, 2 / independent work

Task 1

A front-facing blank head outline is 120 mm tall and 80 mm wide at the eye line. The eye line is at 60 mm from the top, the nose line at 80 mm, and the mouth line at 96 mm. State the eye width, nose width, and mouth width using the landmark rules.

Task 2

A three-quarter blank head outline is 90 mm tall. The eye line is at 45 mm, the nose line at 60 mm, and the mouth line at 72 mm. Describe where the far eye should sit relative to the near eye and the center line.

Portrait Proportion Practice on Blank Head Outlines

Original tasks 3, 4 / independent work

Task 3

A front-facing outline is 110 mm tall and 75 mm wide. The eye line is at 55 mm, the nose line at 73 mm, and the mouth line at 88 mm. A student draws ears from 55 mm to 88 mm. Identify the mistake and give the corrected ear range.

Task 4

A front-facing outline is 100 mm tall and 60 mm wide. The eye line is at 50 mm, the nose line at 67 mm, and the mouth line at 80 mm. A student places the eyes at 45 mm and the nose at 70 mm. State whether each placement is on its landmark and give one adjustment.
