Contour Line Practice: Drawing State Outlines as Continuous Boundaries

Original task 1 / independent drawing and calculation

Task 1

A plate has five marked corners. Your continuous line hits four corners and closes with a 1 mm gap. No pencil lifts. Score continuity, corner accuracy, and closure.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

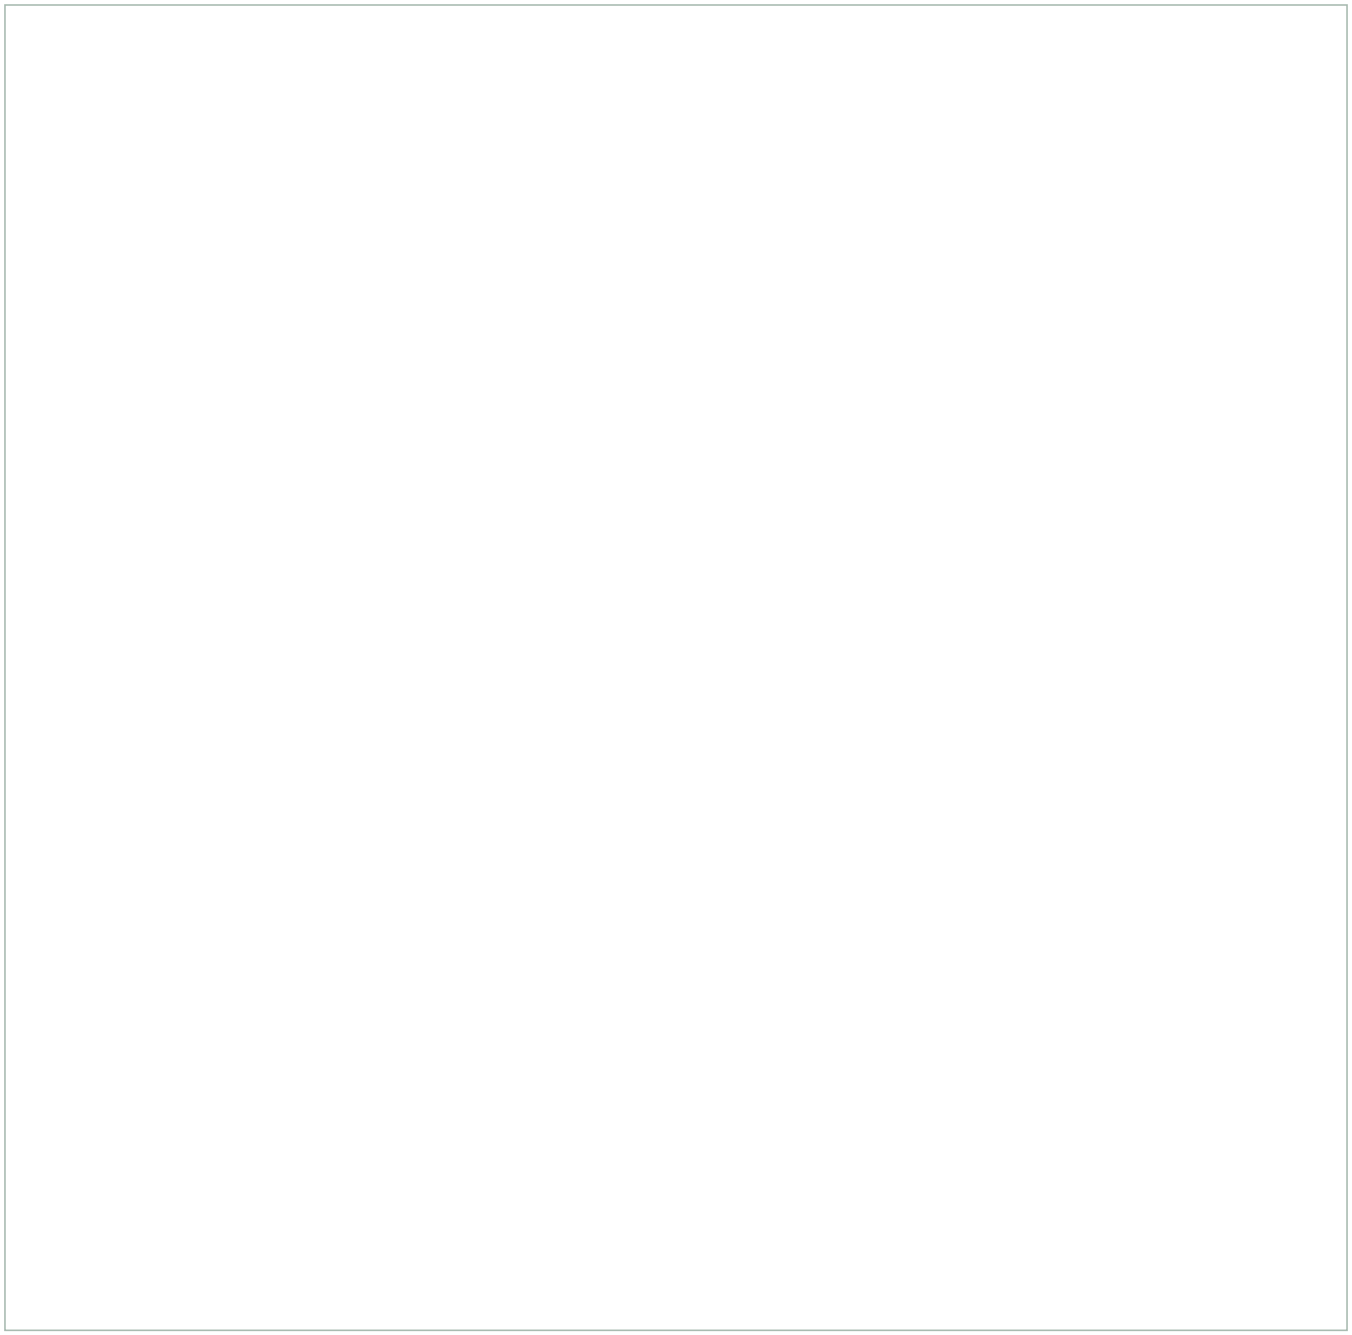

Contour Line Practice: Drawing State Outlines as Continuous Boundaries

Original task 2 / independent drawing and calculation

Task 2

A plate has three long edges and two sharp corners. Your line lifts once at the second corner and ends exactly at the start dot. What is the main improvement?

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Contour Line Practice: Drawing State Outlines as Continuous Boundaries

Original task 3 / independent drawing and calculation

Task 3

You trace a plate with six corners and hit all six, but your end point is 4 mm from the start dot. No lifts. Is the contour closed?

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Contour Line Practice: Drawing State Outlines as Continuous Boundaries

Original task 4 / independent drawing and calculation

Task 4

A tracing box contains a continuous loop with a small drift on one curve, no labels, and a 2 mm closure gap. Score it with the rubric and state one valid alternative.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
