Contour Drawing a Deer: Slow-Line Outline Study

Original tasks 1, 2 / independent work

Task 1

A deer body contour is drawn as one continuous line from nose to tail and back to chest. The antler edge is drawn as one separate line. Count the pencil lifts for these two contours.

Task 2

Your drawing area is 30 cm wide. The deer body is 18 cm wide. What percentage of the drawing width does the body occupy?

Contour Drawing a Deer: Slow-Line Outline Study

Original tasks 3, 4 / independent work

Task 3

You measure a baseline-to-midline distance of 1.5 cm for your labels. You write five labels with the same letter style. What total vertical space do the labels occupy if each label uses one x-height unit?

Task 4

A blind contour pass takes 4 minutes for the body and 2 minutes for each of two legs. A slow contour pass takes 3 minutes for the antler edge. What is the total time for one blind pass and one slow pass?
