# Peace Sign Contour Drawing: A Continuous-Line Study

Original tasks 1, 2 / independent work

## Task 1

A student draws a peace-sign hand but lifts the pencil at every knuckle. Using the convention, explain whether this is a valid contour study and what to change.

## Task 2

Describe the order of edges you would follow for a slow contour starting at the inner wrist and ending at the thumb. Include the two raised fingers and the folded fingers.

# Peace Sign Contour Drawing: A Continuous-Line Study

Original tasks 3, 4 / independent work

## Task 3

A drawing shows the thumb crossing the palm but the line stops at the thumb and restarts at the wrist. Is this acceptable under the convention? Explain.

## Task 4

You have two minutes for a blind contour of a peace-sign hand. List three edges you will follow and state one thing you will not do.
