Contour Line Drawing: A Bedroom Scene Study

Original tasks 1, 2 / independent work

Task 1

A bed is drawn with its headboard on the left and footboard on the right. A chair sits in front of the footboard, overlapping it. Describe the order of contour tracing at the overlap and how to keep the line continuous.

Task 2

A lamp shade overlaps the top edge of a headboard. The lamp is in front. List the contour segments in order from the lamp base to the headboard top, including the overlap handling.

Contour Line Drawing: A Bedroom Scene Study

Original tasks 3, 4 / independent work

Task 3

You are drawing a bed with a visible mattress seam and a headboard with a decorative groove. Decide which lines to include in the single-line contour and which to omit. Explain your choice.

Task 4

A chair is placed beside a bed so that the chair's back touches the bed's side. Describe how to trace the shared edge once and continue to the chair's seat and legs without lifting the pen.
