Contour Watch Drawing: Single-Object Line Study

Original tasks 1, 2 / independent work

Task 1

Describe the contour sequence for a watch with a hypothetical 36 mm round case, a 18 mm strap, and a simple rectangular buckle 22 by 16 mm, viewed face-on.

Task 2

A blind contour drawing of a watch shows the case drawn twice as wide as the strap. Is this acceptable, and why?

Contour Watch Drawing: Single-Object Line Study

Original tasks 3, 4 / independent work

Task 3

List three edges to include and two features to exclude in a contour watch drawing.

Task 4

In a slow contour study, where should you allow brief glances at the paper?
