Directed Drawing Apple Worksheet: Step-by-Step Guide

Original worked example / unchanged complete key

Prompt: Draw an apple in six labeled boxes using the directed steps, then check it against the rubric.

Answer: Box 1: a shallow top curve about 4 cm wide. Box 2: two side curves sloping outward and down. Box 3: a narrower rounded bottom curve. Box 4: a 1 cm stem from the center dip. Box 5: one leaf attached to the stem, pointing right. Box 6: erase the dot and add a short highlight curve on the upper left. The finished apple is wider at the top, narrower at the bottom, with the stem centered and the leaf attached.
