Blind-Contour Figure Drawing of People in Public: A Timed, Unbroken-Line Practice

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

Blind-Contour Figure Drawing of People in Public: A Timed, Unbroken-Line Practice

Worked example / complete source key

A seated person faces slightly left. Start at the top of the head. Draw one unbroken line for 60 seconds, covering the head outline, the shoulder line, and the line where the forearm meets the thigh. Do not look at the paper. After the timer, complete the checklist.

Answer: The attempt shows one continuous line from the top of the head, around the head outline, down to the shoulder, across to the forearm, and along the forearm-thigh edge. The line crosses itself once near the shoulder. The checklist records: line unbroken yes; looked at paper no; major edges three; stopped at 60 seconds. Rubric score: continuity 2, coverage 2, time 2, reflection 2, total 8.
