Abstract Profile Face in Contour Line: Simplify Curves with Confidence

Original task 1 / independent drawing and calculation

Task 1

Draw an abstract profile contour with a total height of 10 cm. Use hypothetical segments: forehead 2.5 cm, brow-to-nose 1.5 cm, nose-to-chin 3.5 cm, jaw return 2.5 cm. Apply the two-bend limit.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Abstract Profile Face in Contour Line: Simplify Curves with Confidence

Original task 2 / independent drawing and calculation

Task 2

Simplify a nose segment that has four small bumps into an abstract contour segment with at most two bends. Describe the new segment and how you would check it.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Abstract Profile Face in Contour Line: Simplify Curves with Confidence

Original task 3 / independent drawing and calculation

Task 3

A contour has segments of 3 cm, 2 cm, 4 cm, and 2 cm. The total height is 12 cm. Does the measurement check pass? Show the arithmetic and state any adjustment.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Abstract Profile Face in Contour Line: Simplify Curves with Confidence

Original task 4 / independent drawing and calculation

Task 4

Draw a broken contour using two strokes: one from forehead to nose tip, one from nose tip to chin. Keep each feature to at most two bends and total height 14 cm. Use hypothetical segments: forehead 3 cm, brow-to-nose 2 cm, nose-to-chin 5 cm, jaw return 4 cm.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
