Draw Anime Hair Strands with Head-Angle Perspective

Original task 1 / independent drawing and calculation

Task 1

Front view: draw a cranium circle 6 cm across (hypothetical example). Mark the crown and a hairline curve. Draw four strands: two sweeping left, two sweeping right. Check that each root touches the crown or hairline.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Draw Anime Hair Strands with Head-Angle Perspective

Original task 2 / independent drawing and calculation

Task 2

Three-quarter view: draw a head frame with the midline shifted toward the visible side. Draw three visible-side strands sweeping forward and two far-side strands compressed near the head edge. Check that far-side detail is reduced.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Draw Anime Hair Strands with Head-Angle Perspective

Original task 3 / independent drawing and calculation

Task 3

Tilted view: rotate the head frame 20 degrees (hypothetical example). Draw five strands whose roots follow the tilted crown and whose tips hang downward. Check that tips follow gravity.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Draw Anime Hair Strands with Head-Angle Perspective

Original task 4 / independent drawing and calculation

Task 4

Layer check: on any head-angle frame, draw a base layer of three clumps and a top layer of two clumps that overlap and extend beyond the base. Vary clump widths and taper each from root to tip.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
