Making Faces Out of Shapes: A Cartoon Drawing Exercise

Original tasks 1, 2 / independent work

Task 1

Draw a cartoon face with a circle head, square eyes, flat brows, and a wide oval mouth. Name the expression.

Task 2

Keep the same circle head and square eyes, but change the brows to angle toward the center and the mouth to a downward crescent. Describe the new expression.

Making Faces Out of Shapes: A Cartoon Drawing Exercise

Original tasks 3, 4 / independent work

Task 3

Plan a face with a triangle head, triangle eyes, raised curved brows, and a small oval mouth. State one measurement example in millimeters and check the eye spacing arithmetic.

Task 4

Create a four-box expression panel using the same square head and circle eyes. In box one use flat brows and a straight mouth; box two angled brows and a straight mouth; box three raised brows and a small oval mouth; box four lowered brows and a downward crescent mouth. Name each expression.
