Contour Line Garden Flowers: Overlapping Blooms Practice

Original worked example / unchanged complete key

Prompt: Draw a front daisy overlapping a back tulip in continuous contour line inside a 10 cm by 10 cm box. Include one leaf crossing behind both blooms. Use the front-edge-wins rule.

Answer: Start at the top of the daisy. Draw the daisy petal edges in one continuous line, moving clockwise. When you reach the tulip boundary, stop the tulip edge at the daisy edge and turn to follow the daisy. Continue around the daisy, then travel down the daisy stem to the leaf. Draw the leaf edge until it meets the tulip stem, stop, and return along the daisy stem to the tulip. Draw the tulip visible edges, stopping at the daisy boundary. Finish at the tulip base. The line is continuous, three overlap points are clear, and the drawing stays inside the box.
