Draw and Compare Two Dinosaurs: Preschool Worksheet Plan

Original tasks 1, 2 / independent work

Task 1

A child draws dinosaur one with an oval body, two legs, a round head, and a short tail. Dinosaur two has an oval body, two legs, a square head, and a long tail. In the comparison table, the child marks body outline as same and leg shape as same, and leaves the head shape and tail shape rows blank. Is the worksheet complete?

Task 2

A child draws dinosaur one with a body outline, two leg shapes, a head shape, and a tail shape. Dinosaur two has a body outline, a head shape, and a tail shape but no leg shape. The table marks leg shape as different. Is the right drawing valid?

Draw and Compare Two Dinosaurs: Preschool Worksheet Plan

Original tasks 3, 4 / independent work

Task 3

A child draws two dinosaurs that look identical. The table marks body outline as same and tail shape as same. What should the adult do next?

Task 4

A child draws two dinosaurs, each with a body outline, at least one leg shape, a head shape, and a tail shape. In the comparison table, the child writes the label long neck in the features row and marks the features row as different. The letters are uneven and small. Is the worksheet complete?
