Cartoon Drawing: Musician Practicing an Instrument

Original worked example / unchanged complete key

Prompt: Draw a cartoon figure seated at a keyboard, practicing. Use the mitten hand convention and show both hands above the keys.

Answer: A seated figure with a large head, oval torso, and cylindrical arms. The keyboard is a rectangle in front of the torso with a horizontal guide line. Both hands are mitten shapes with thumb and three finger lines, placed above the guide line with fingers curved downward. The face shows focus with simple eyes and a slight smile. A stool is drawn as a simple rectangle. The instrument outline is slightly thicker than the body outline.
