Drawing Cat Paw Prints from Top, Side, and Angled Views

Original task 1 / independent drawing and calculation

Task 1

On a grid where one square equals 1 cm, draw a top-view print with a main pad 3 cm wide and 2 cm tall and four toe ovals 1 cm wide and 1.5 cm tall. Describe your spacing.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Drawing Cat Paw Prints from Top, Side, and Angled Views

Original task 2 / independent drawing and calculation

Task 2

Draw a side-view print about 4 cm wide and 1 cm tall on the same grid. Explain why it is flatter than the top view.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Drawing Cat Paw Prints from Top, Side, and Angled Views

Original task 3 / independent drawing and calculation

Task 3

Draw an angled-view print tilted about 45 degrees. Make the main pad 3 cm wide and 1.5 cm tall along the tilt, with four compressed toe ovals. Describe how you showed foreshortening.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Drawing Cat Paw Prints from Top, Side, and Angled Views

Original task 4 / independent drawing and calculation

Task 4

Create a small reference sheet with all three views side by side on one grid. Label each view using your own lettering at least one x-height tall. List two checks you used.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
