Dragon Ball Drawing Practice: Proportion and Pose Fundamentals

Original task 1 / independent drawing and calculation

Task 1

Draw a 6-head Dragon Ball fighter with a 2 cm head unit. Calculate total height, then draw the figure and label shoulder width as 2 head units.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Dragon Ball Drawing Practice: Proportion and Pose Fundamentals

Original task 2 / independent drawing and calculation

Task 2

A figure has a 3 cm head unit and total height of 21 cm. The drawn shoulders are 5 cm wide. Is this close to 2 head units? Show the arithmetic.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Dragon Ball Drawing Practice: Proportion and Pose Fundamentals

Original task 3 / independent drawing and calculation

Task 3

Describe a dynamic fighting stance in words: line of action, shoulder and hip offset, and limb placement. Then draw it using a 7-head ratio with a 2.5 cm head unit.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Dragon Ball Drawing Practice: Proportion and Pose Fundamentals

Original task 4 / independent drawing and calculation

Task 4

Draw a figure with a 4 cm head unit and total height of 24 cm. Measure your drawn shoulder width and hip width, then state whether they are close to 2 and 1.5 head units.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
