Practice Drawing Fishers: Pose, Fur and Habitat Study

Original task 1 / independent drawing and calculation

Task 1

Plan a side-on fisher standing on a level branch. Mark a baseline at the lowest paw and a midline through shoulder and hip. Label a hypothetical x-height of 5 cm. Describe where the chest and hip ovals sit relative to the midline.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Practice Drawing Fishers: Pose, Fur and Habitat Study

Original task 2 / independent drawing and calculation

Task 2

Draw a fisher climbing a sloping branch. The front paws are higher than the rear paws. Mark the baseline at the lower rear paw and the midline through shoulder and hip. Add three fur zones and state which zone has the longest marks.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Practice Drawing Fishers: Pose, Fur and Habitat Study

Original task 3 / independent drawing and calculation

Task 3

Sketch a fisher on a branch with a simple forest-edge habitat. Keep the background lighter than the animal. Describe two checks that show the habitat supports rather than hides the fisher.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Practice Drawing Fishers: Pose, Fur and Habitat Study

Original task 4 / independent drawing and calculation

Task 4

Review a fisher study where the body looks thin and the fur is drawn as one outline. State two specific fixes using the lesson convention, and describe how you would check each fix.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
