Full-Scale Furniture Drawing: Dimensioned Plan and Elevation

Original task 1 / complete key

Task 1

A hypothetical shelf unit has overall width 800 mm, depth 300 mm, and height 1200 mm. It has three shelves of equal thickness 20 mm, with the top shelf at the top of the unit. Draw a full-scale dimensioned plan and elevation. Describe the layout in words if needed.

Answer: Plan: 800 mm by 300 mm rectangle with dimension lines for width and depth. Elevation: 800 mm by 1200 mm rectangle; mark shelf lines at 20 mm thickness each, spaced evenly. Dimension overall height 1200 mm and shelf thickness 20 mm. Check that shelf positions are consistent.

Reason: The plan gives footprint; the elevation gives vertical arrangement. Equal shelf spacing requires dividing the internal height by the number of gaps, but the prompt only requires thickness and overall dimensions, so mark shelves evenly and label thickness.

Check: Verify that the plan width matches the elevation width (800 mm) and that all dimensions are in millimetres with a stated unit.

Full-Scale Furniture Drawing: Dimensioned Plan and Elevation

Original task 2 / complete key

Task 2

A hypothetical table has overall width 900 mm, depth 600 mm, height 750 mm, and top thickness 25 mm. Draw a full-scale dimensioned plan and elevation. Check that top thickness plus leg height equals overall height.

Answer: Plan: 900 mm by 600 mm rectangle. Elevation: 900 mm by 750 mm rectangle; mark top thickness 25 mm at the top. Leg height is 750 - 25 = 725 mm. Dimension overall height 750 mm, top thickness 25 mm, and leg height 725 mm. Check: 725 + 25 = 750 mm.

Reason: The elevation stacks leg height and top thickness. Subtracting top thickness from overall height gives leg height, which can be dimensioned directly.

Check: Add leg height and top thickness; confirm the sum equals overall height. Confirm plan and elevation widths match.

Full-Scale Furniture Drawing: Dimensioned Plan and Elevation

Original task 3 / complete key

Task 3

A hypothetical cabinet has overall width 1000 mm, depth 450 mm, height 1800 mm. It has two doors, each 500 mm wide, and a 20 mm top thickness. Draw a full-scale dimensioned plan and elevation. Show door widths and check that they sum to overall width.

Answer: Plan: 1000 mm by 450 mm rectangle. Elevation: 1000 mm by 1800 mm rectangle; mark two door widths of 500 mm each and top thickness 20 mm. Check: 500 + 500 = 1000 mm. Dimension overall height 1800 mm and top thickness 20 mm.

Reason: Door widths are horizontal segments that must sum to overall width. The top thickness is a vertical segment within the overall height.

Check: Sum door widths and compare with overall width. Confirm all dimensions use millimetres and are labeled clearly.

Full-Scale Furniture Drawing: Dimensioned Plan and Elevation

Original task 4 / complete key

Task 4

A hypothetical bench has overall width 1200 mm, depth 400 mm, seat height 450 mm, seat thickness 40 mm, and leg height 410 mm. Draw a full-scale dimensioned plan and elevation. Check the arithmetic and state the x-height convention used for lettering.

Answer: Plan: 1200 mm by 400 mm rectangle. Elevation: 1200 mm by 450 mm rectangle; mark seat thickness 40 mm at 410 mm to 450 mm. Dimension leg height 410 mm and seat thickness 40 mm. Check: 410 + 40 = 450 mm. Lettering uses x-height from baseline to midline; any consistent legible style is acceptable.

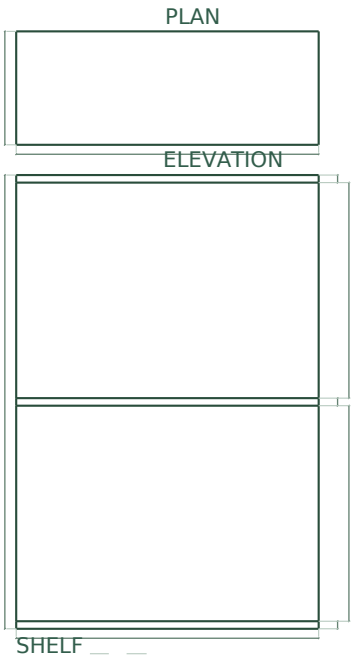

Reason: The elevation stacks leg height and seat thickness. The plan gives footprint. The x-height convention ensures dimension text is readable without imposing a single letter style.

Check: Add leg height and seat thickness; confirm sum equals seat height. Confirm plan width equals elevation width. Check that units are stated once.

Full-Scale Furniture Drawing: Dimensioned Plan and Elevation

Task 1 / answers

OVERVIEW PRINT1:20 / following tiled sheets are true1:1

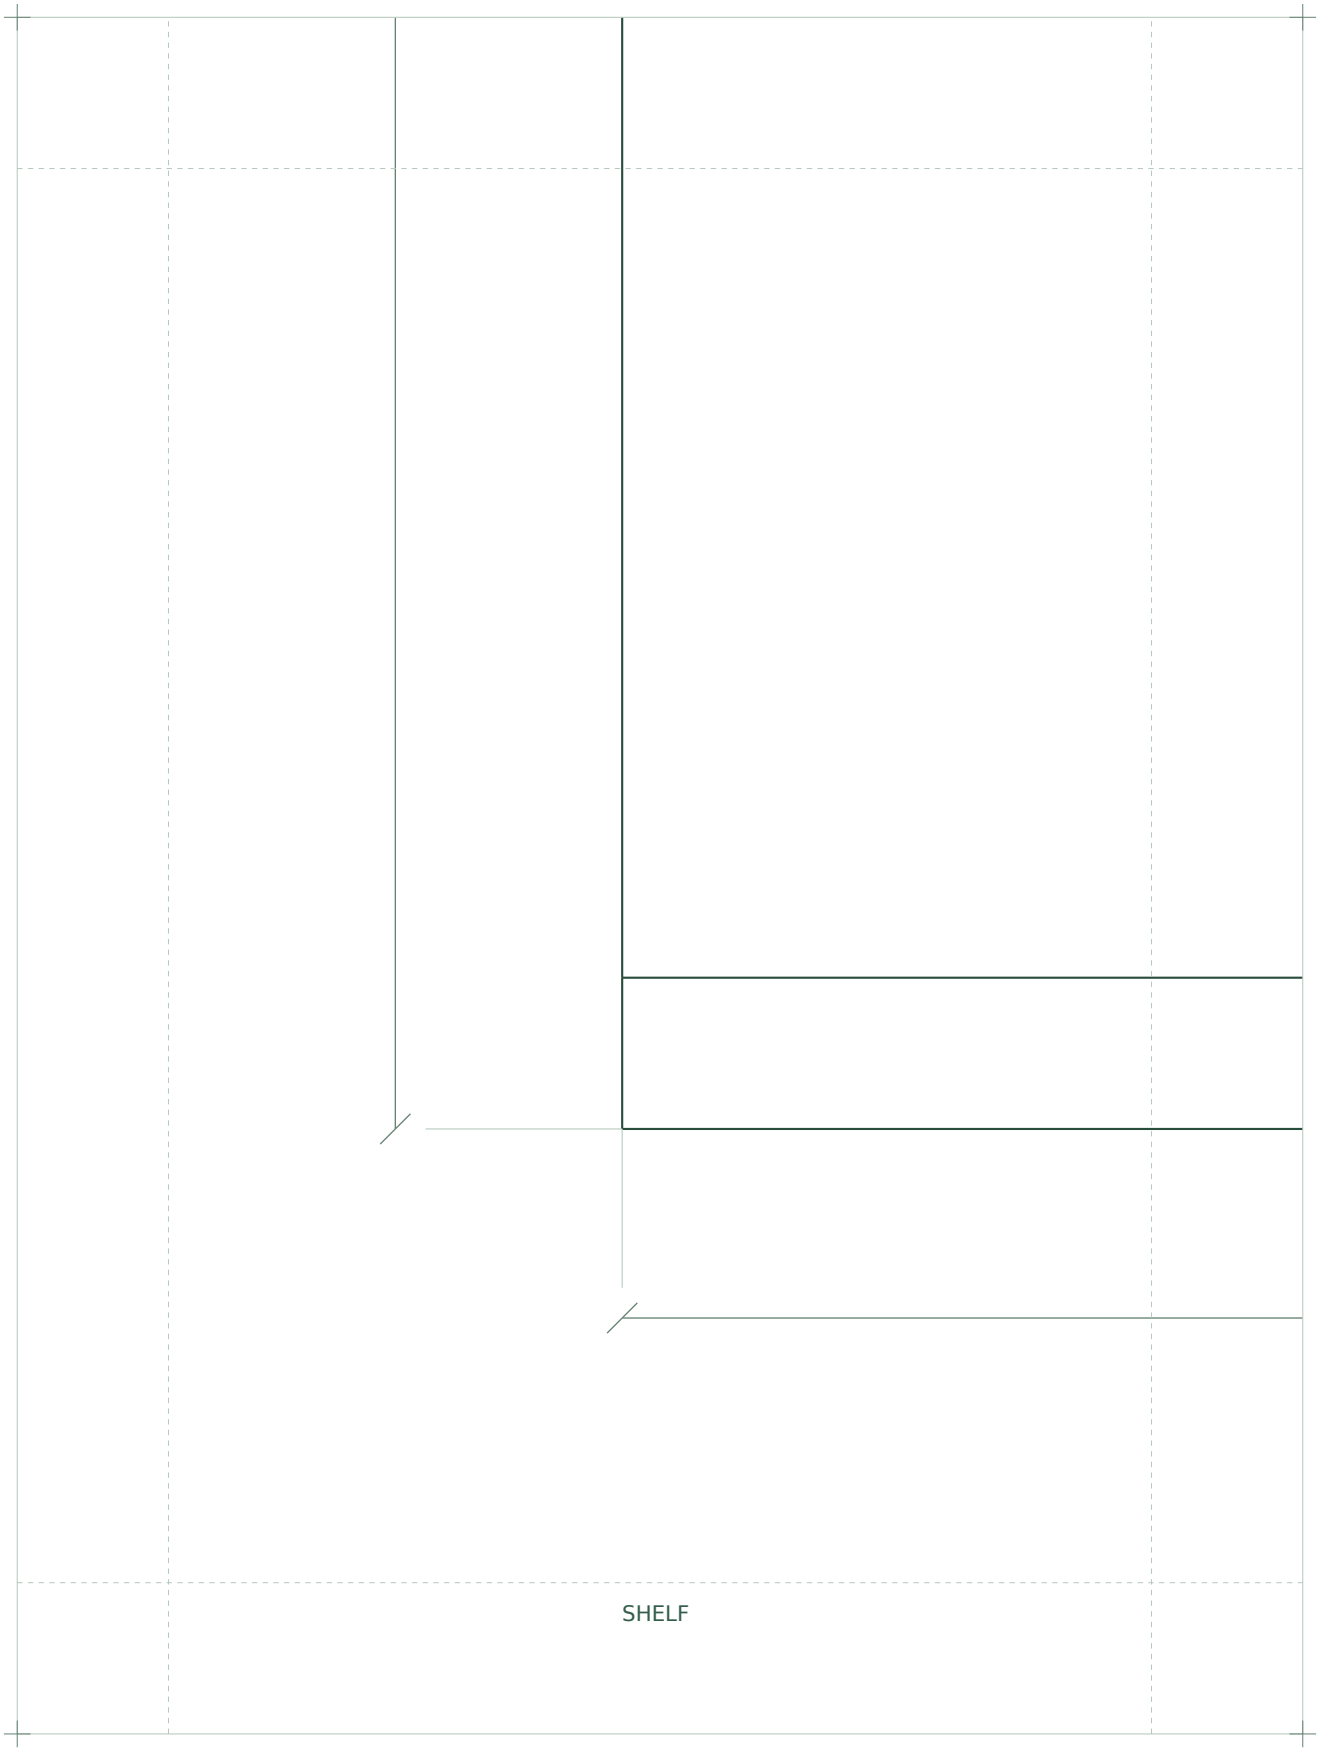

SHELF /800 x300 plan; height1200; three20mm shelves. Selected bottom at floor:0-20,590-610,1180-1200; two clear gaps570 mm.

This compact map is1:20 with readable unscaled text. Actual1:1 A4 and Letter tiles follow, with100mm calibration bars,20mm overlaps and matched world coordinates. Join tiles before measuring furniture. Selected leg width30mm/shelf placement are declared drawing choices, not construction or safety certification. Name/date fields remain available on the full-size title block.

Full-Scale Furniture Drawing: Dimensioned Plan and Elevation

Task 2 / answers

OVERVIEW PRINT1:20 / following tiled sheets are true1:1

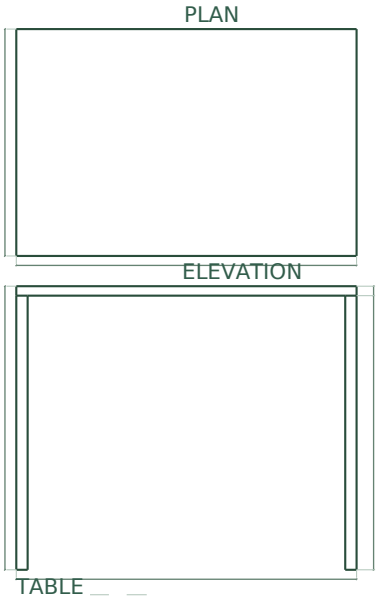

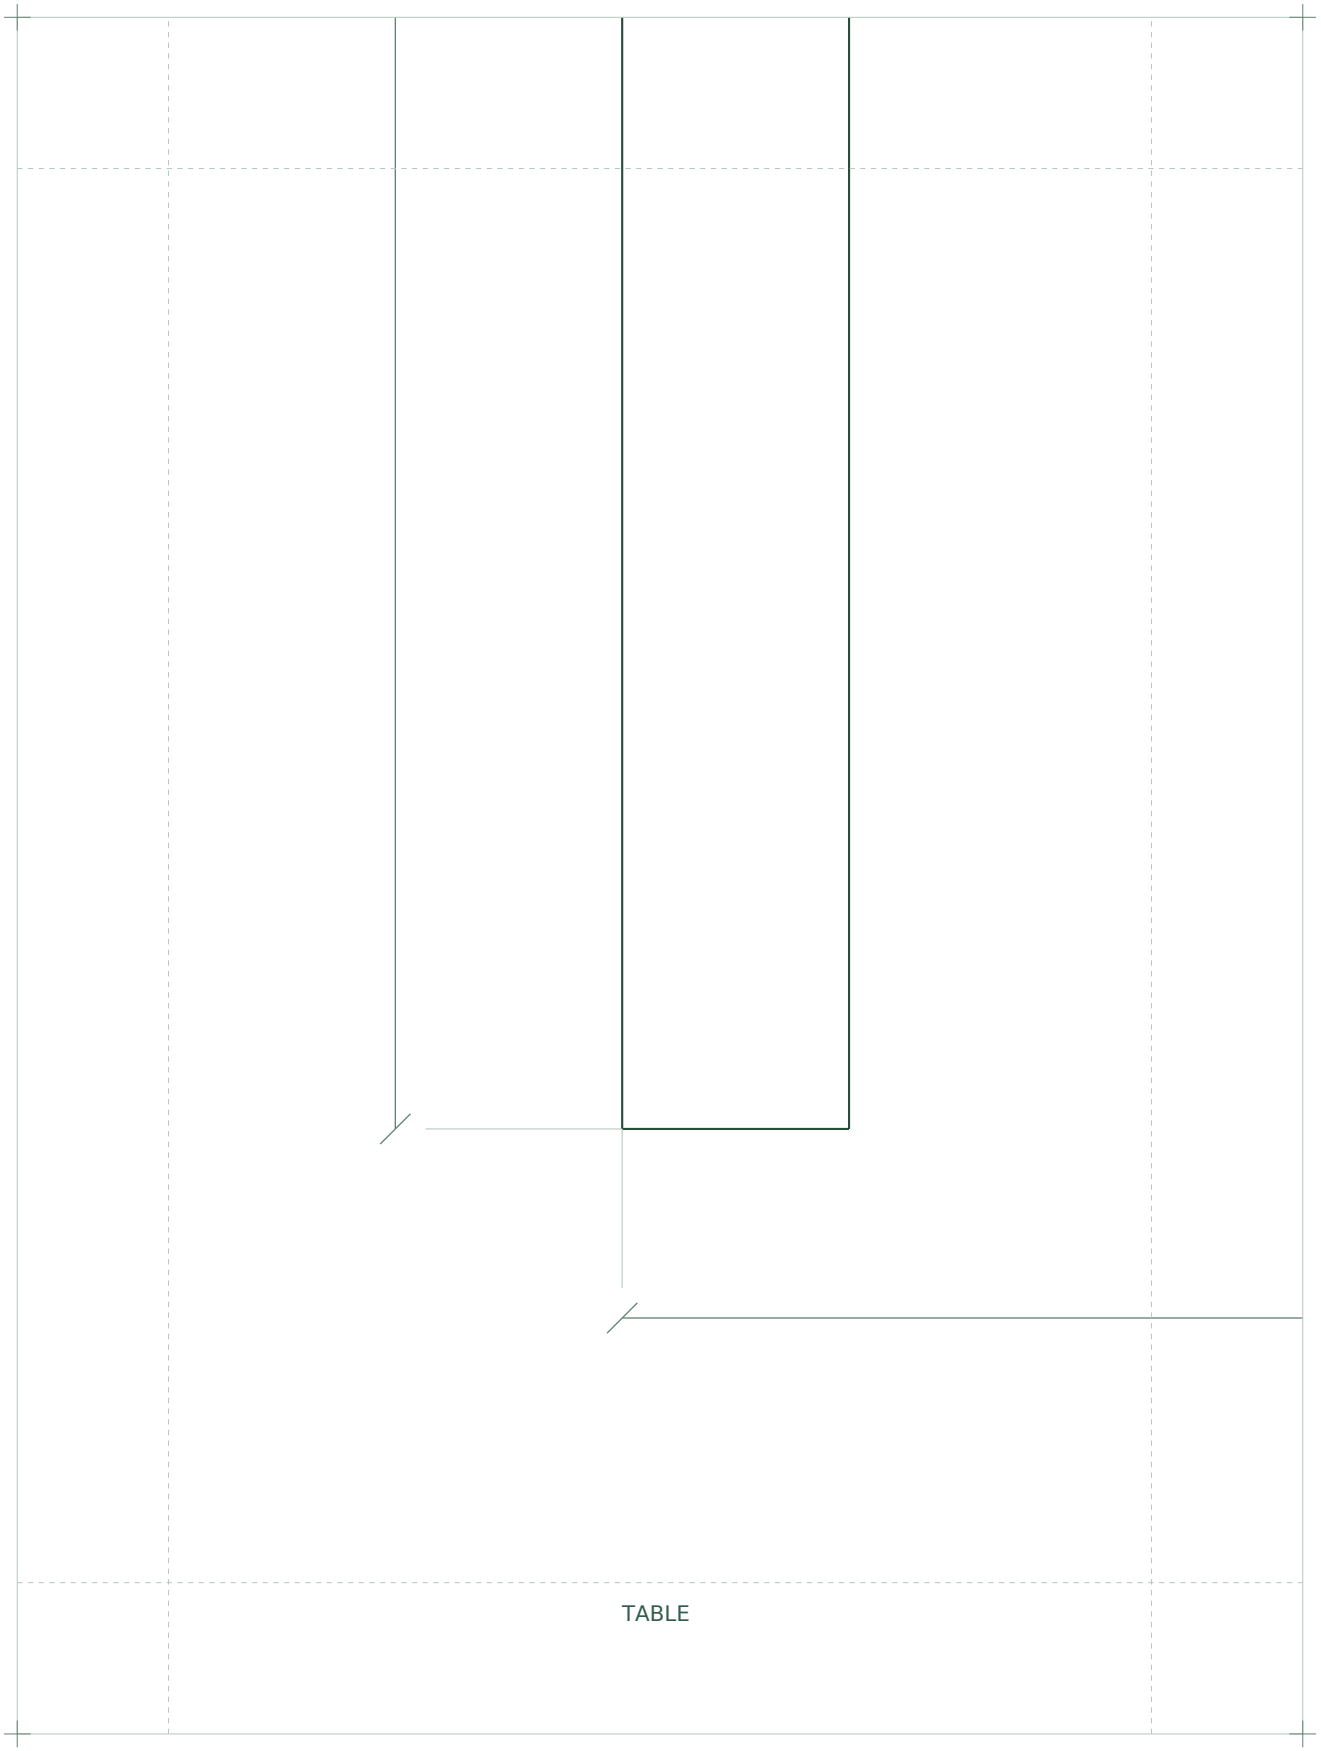

TABLE /900 x600 plan; height750 = legs725 + top25 mm.

This compact map is1:20 with readable unscaled text. Actual1:1 A4 and Letter tiles follow, with100mm calibration bars,20mm overlaps and matched world coordinates. Join tiles before measuring furniture. Selected leg width30mm/shelf placement are declared drawing choices, not construction or safety certification. Name/date fields remain available on the full-size title block.

Full-Scale Furniture Drawing: Dimensioned Plan and Elevation

Task 3 / answers

OVERVIEW PRINT1:20 / following tiled sheets are true1:1

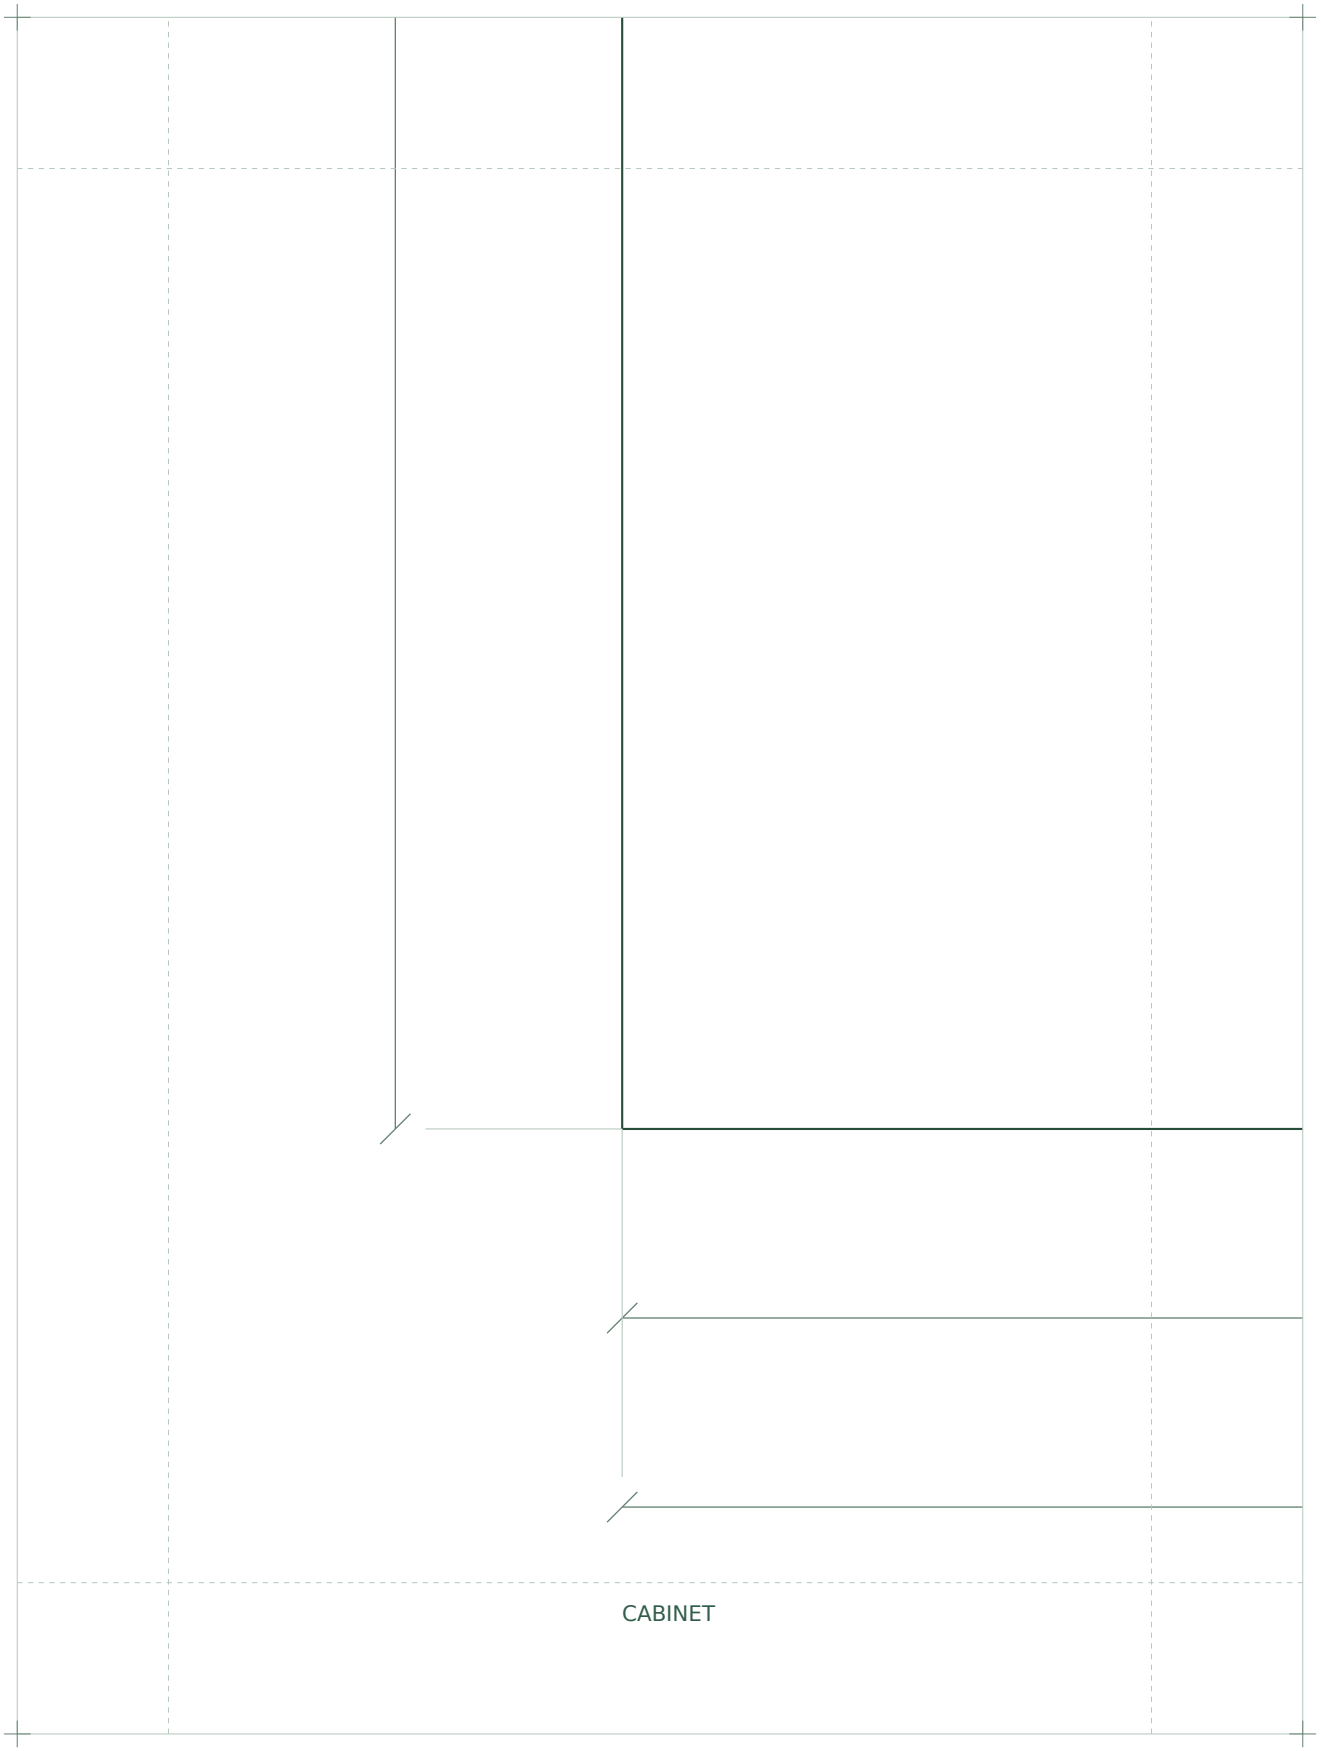

CABINET /1000 x450 plan; height1800; top20; doors500+500=1000 mm.

This compact map is1:20 with readable unscaled text. Actual1:1 A4 and Letter tiles follow, with100mm calibration bars,20mm overlaps and matched world coordinates. Join tiles before measuring furniture. Selected leg width30mm/shelf placement are declared drawing choices, not construction or safety certification. Name/date fields remain available on the full-size title block.

Full-Scale Furniture Drawing: Dimensioned Plan and Elevation

Source rubric / reflection

- [ ] Plan shows overall width and depth at full scale with clear dimension lines.
- [ ] Elevation shows overall height and vertical features at full scale with clear dimension lines.
- [ ] All dimensions use one consistent unit, stated once in the title block.
- [ ] Arithmetic checks confirm that stacked or segmented dimensions equal overall dimensions.
- [ ] Lettering follows the baseline-to-midline x-height convention and is legible; valid alternative styles are accepted.
- [ ] Plate includes title block with scale, units, name, and date.

Reflection: What did you check, what did you change, and what will you try next?
