Mirror Symmetry: Draw a Glass House Facade

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

Mirror Symmetry: Draw a Glass House Facade

Worked example / complete source key

A facade is 20 cm wide and 12 cm high. The centerline is at 10 cm. A left window edge is 3 cm from the centerline. Where is the matching right window edge, and what is the total width between the two edges?

Answer: The right window edge is 3 cm from the centerline on the right. The total width between the two edges is 6 cm.
