Draw Gloves from the Back View: Cuff, Seams, and Finger Overlap

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

Draw Gloves from the Back View: Cuff, Seams, and Finger Overlap

Worked example / complete source key

Draw a back-view glove with a 3 cm cuff band, a hand mass 6 cm wide at the wrist, and four fingers with 0.5 cm overlap. Add center finger seams and a cuff seam.

Answer: First draw two arcs 3 cm apart for the cuff, closed with curved sides. Below, block a rounded trapezoid 6 cm wide at the top. Draw the index finger tube, then middle, ring, and little finger, each overlapping the next by 0.5 cm. Add the thumb on the opposite side. Draw center seams on each finger stopping 1 cm before the tip, an outer-edge seam, and a cuff seam parallel to the opening. Darken outlines and erase construction lines.
