Draw Gloves from the Back View: Cuff, Seams, and Finger Overlap

Original tasks 1, 2 / independent work

Task 1

A back-view glove drawing has a cuff band 4 cm high and a hand mass 7 cm wide at the wrist. The cuff is drawn 6 cm wide. Is the cuff proportion acceptable under the lesson convention? Explain.

Task 2

You draw four fingers with overlaps of 0.5 cm, 0.5 cm, and 1.5 cm between successive pairs. The lesson asks for consistent overlap. What should you change, and what is the total overlap if you use 0.5 cm for all three gaps?

Draw Gloves from the Back View: Cuff, Seams, and Finger Overlap

Original tasks 3, 4 / independent work

Task 3

A finger is drawn 8 cm long from base to tip. A center seam is drawn starting at the base and ending exactly at the tip. According to the lesson, where should the seam stop, and how long is the visible seam if it stops 1 cm before the tip?

Task 4

A glove back view has a cuff seam drawn 2 cm below the cuff opening and a cuff band 3 cm high. Is the cuff seam inside the band? If the band is 3 cm and the seam is 2 cm below the opening, how far is the seam from the lower cuff edge?
