Grandparent Portrait Drawing: Feature Placement Guide

Original tasks 1, 2 / independent work

Task 1

A front-facing face is 10 cm tall from top to chin and 7 cm wide. The student places the eye line at 5 cm from the top, the nose base at 7.5 cm from the top, and the mouth line at 8.5 cm from the top. Are these placements consistent with the lesson's conventions? Explain.

Task 2

A student draws a face 9 cm tall from top to chin. They put the eye line at 3 cm from the top and the nose base at 6 cm from the top. What is the main placement error, and how should they fix it?

Grandparent Portrait Drawing: Feature Placement Guide

Original tasks 3, 4 / independent work

Task 3

A slightly turned grandparent face is 8 cm wide. The student places the eyes with a 2 cm gap and each eye 1.2 cm wide. Is the eye spacing plausible under the lesson's convention? Suggest a small adjustment.

Task 4

A front-facing face is 11 cm tall from top to chin. The student places the nose base at 8 cm from the top and the mouth line at 9 cm from the top. Check the mouth placement using the one-third rule from nose base to chin.
