Contour Line Lightbulb: Labeled Outline and Shading Practice

Original worked example / unchanged complete key

Prompt: A student draws a lightbulb 8 cm tall and 5 cm wide. The neck is 2 cm wide and the base is 3 cm wide with two ridges. The highlight strip is 0.5 cm wide. Where should the cast shadow touch, and what should be labeled?

Answer: The cast shadow should touch the bottom of the base and sit below it as a soft oval. Labels: glass bulb, neck, base, filament, outline. The highlight strip stays unshaded along the upper-left glass curve.
