Draw a Monet-Style Bridge: Arch and Reflection Worksheet Plan

Original worked example / unchanged complete key

Prompt: On a landscape sheet, draw a Monet-style bridge with one arch, five posts, and a water reflection with ripple marks. Use a waterline two-thirds down the page and an arch width of 12 cm as hypothetical examples.

Answer: The finished drawing shows a smooth arch springing from two points on the deck baseline, a narrow deck band with five evenly spaced posts, and a lighter mirrored reflection below the waterline. Horizontal ripple marks cross the reflection. The arch top is roughly half the arch width above the baseline, and the reflection distances match the bridge distances above the waterline.
