NYC Skyline Drawing and Landmark Labeling Worksheet Plan

Original worked example / unchanged complete key

Prompt: A learner draws a skyline with three buildings on a baseline. The tallest building top is 1 cm above the midline. Two label boxes overlap by 0.5 cm. Describe two corrections and one check.

Answer: Correction 1: lower the tallest building top to within 0.5 cm of the midline (hypothetical tolerance). Correction 2: shift one label box 1 cm to the side to remove overlap. Check: measure the gap between label boxes; it should be at least 0.5 cm (hypothetical example).
