Draw a Bundled-Up Figure in Layered Warm Clothing

Original worked example / unchanged complete key

Prompt: On a 20 cm by 28 cm sheet, draw a standing figure bundled in a coat, scarf, hat, and boots. The figure occupies a box 8 cm wide and 18 cm tall. Light comes from the upper left. Add two compression folds at each elbow and knee, and shade the right side.

Answer: A completed drawing shows a rounded coat volume with a flared hem, a scarf tube wrapping the neck with one hanging end, a low hat dome, and boots overlapping the trouser legs. The silhouette is wider at the torso and narrower at the ankles. Two short curved folds point toward each elbow and knee. Shading is on the right side and in deep overlaps under the scarf. Labels are written with baseline-to-midline x-height.
