Draw Serpent Scale Rows: Overlap Practice

Original tasks 1, 2 / independent work

Task 1

A band is 9 cm long with row centers every 1.5 cm. Each row has 4 scales. Find the number of rows and total scales.

Task 2

A row is 6 cm wide and each scale is 1.5 cm wide with a 0.25 cm overlap between neighbors. Estimate how many scales fit.

Draw Serpent Scale Rows: Overlap Practice

Original tasks 3, 4 / independent work

Task 3

You draw 7 rows with 5 scales each, but one row has 6 scales. What is the total scale count?

Task 4

A band has 8 rows spaced 1.2 cm apart. What length does the row span cover from first to last row center?
