Draw and Label Exactly Seven Objects: A Counting and Drawing Lesson

Original task 1 / supplied guide and independent work

Task 1 / independent work

Seven blank boxes are shown in a row. Draw exactly seven objects, one per box, and label each on the line below. Then write the numeral 7 at the end of the row.

Given guide / complete your own response; this is not a finished answer.

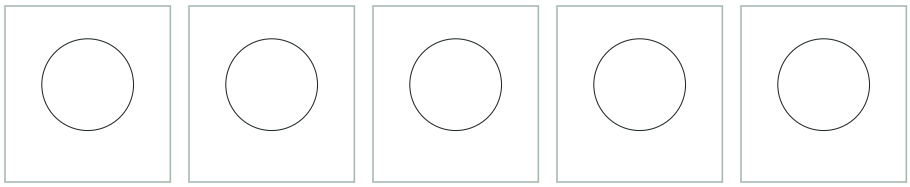

Draw and Label Exactly Seven Objects: A Counting and Drawing Lesson

Original task 2 / supplied guide and independent work

Task 2 / independent work

A learner draws five circles in five boxes and writes labels under each. They claim they have seven objects. What is wrong, and how do they fix it?

Given guide / complete your own response; this is not a finished answer.

circle circle circle circle circle

Original task 3 / supplied guide and independent work

Task 3 / independent work

Seven boxes are provided. A learner draws seven stars but puts two stars in the first box and none in the last box. They label all seven boxes. Is the convention met? Explain and correct.

Given guide / complete your own response; this is not a finished answer.

star | star | star | star | star | star | star

Draw and Label Exactly Seven Objects: A Counting and Drawing Lesson

Original task 4 / supplied guide and independent work

Task 4 / independent work

A learner draws seven different objects in seven boxes and labels them. Their count check says six. What likely happened, and what should they do?

Given guide / complete your own response; this is not a finished answer.

circle | square | triangle | star | leaf | apple | sun
