Toony Furry Head Drawing Practice: Feature Placement

Original worked example / unchanged complete key

Prompt: Draw a toony furry head with a head box 10 units wide. Place eyes 2 units apart, centered on the midline, nose on the centerline at the muzzle top, and ears on the upper sides. Check eye distances to the centerline.

Answer: Head box drawn 10 units wide; midline and centerline marked. Eyes placed 2 units apart, each 1 unit from the centerline. Nose centered on the centerline at the muzzle top. Ears attached to upper sides. Check: left eye distance = 1 unit, right eye distance = 1 unit, nose distance = 0 units. Placement is balanced and intentional.
