Two-Cup Water Drawing: Rim Ellipses, Levels, Shadows

Original tasks 1, 2 / independent work

Task 1

Cup A is nearer and one-quarter full. Cup B is farther and three-quarters full. Light comes from the right. Describe the rim ellipses, water levels, and shadows for both cups.

Task 2

Two cups are the same distance from the viewer. Cup A is empty. Cup B is half full. Light comes from the front. Describe the rim ellipses, water levels, and shadows.

Two-Cup Water Drawing: Rim Ellipses, Levels, Shadows

Original tasks 3, 4 / independent work

Task 3

Cup A is farther and nearly full. Cup B is nearer and one-third full. Light comes from the left. Describe the rim ellipses, water levels, and shadows.

Task 4

Two cups sit side by side. Cup A is nearer and two-thirds full. Cup B is farther and one-third full. Light comes from the back. Describe the rim ellipses, water levels, and shadows.
