Draw Your Neighborhood Map: Labeled Streets and Landmarks

Original task 1 / independent drawing and calculation

Task 1

On a map with a scale of 1 cm to 25 m, two landmarks are 4 cm apart. What is the real distance? Show your arithmetic.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

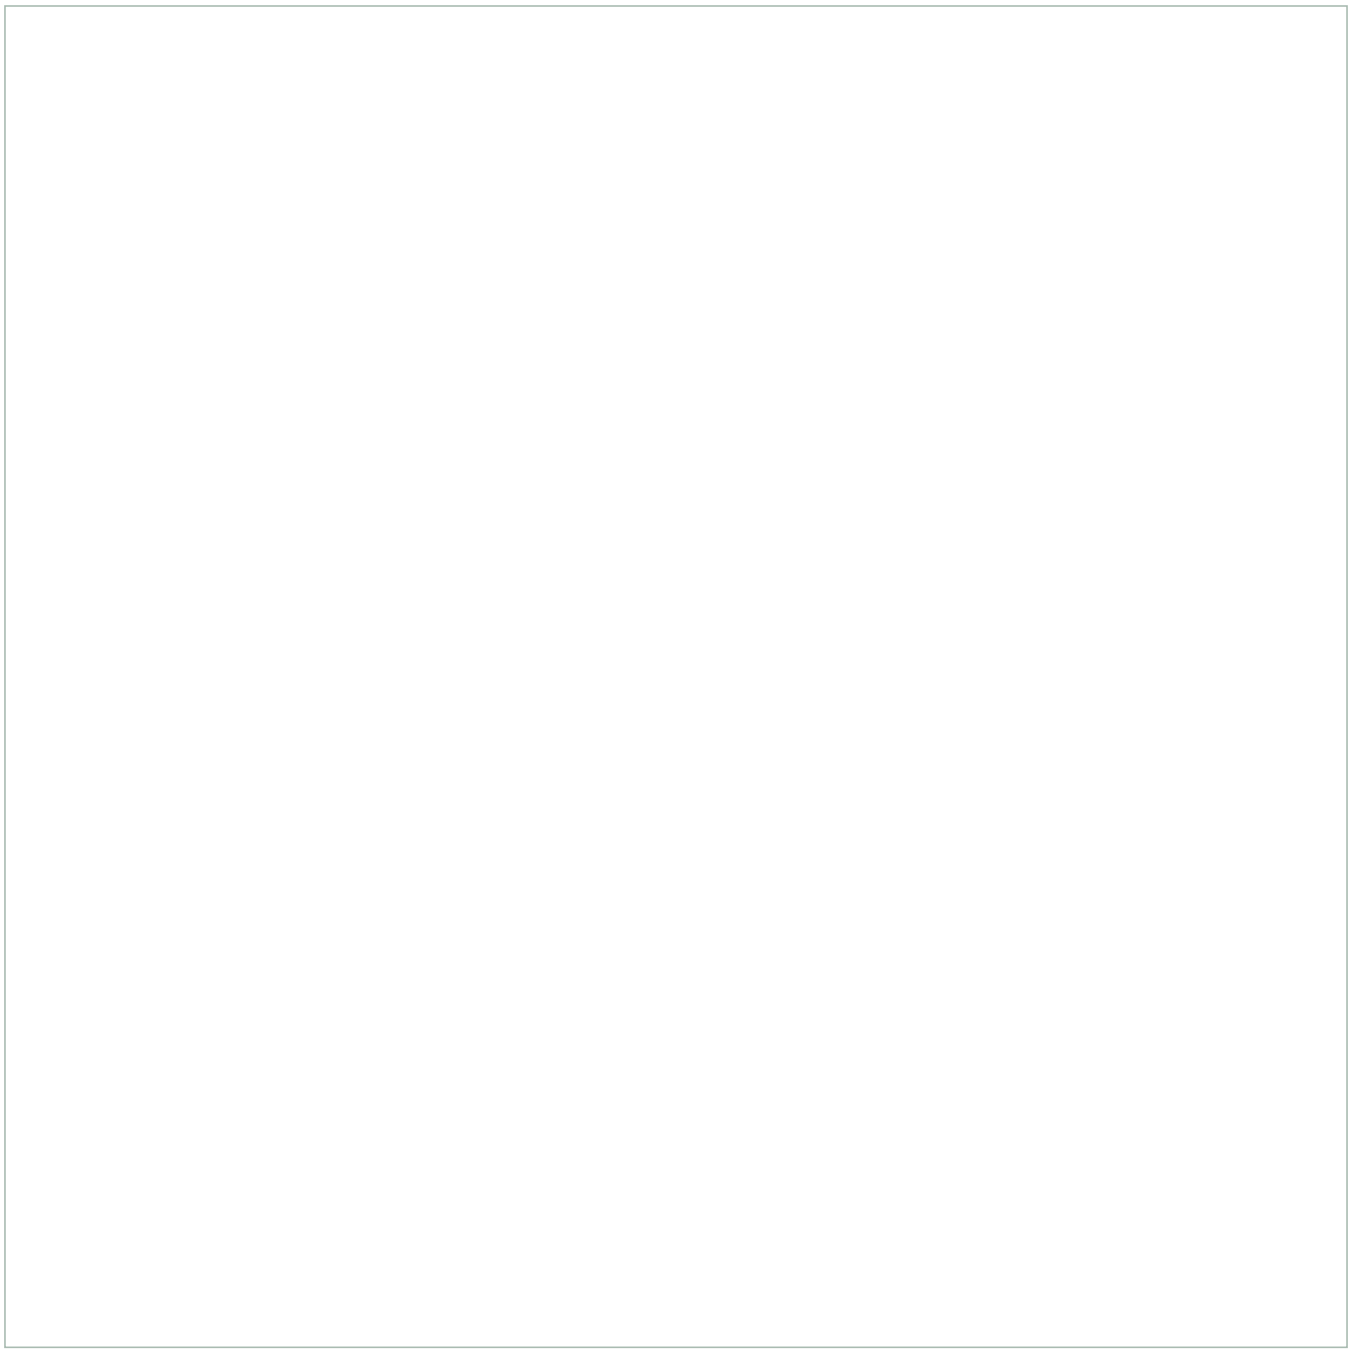

Draw Your Neighborhood Map: Labeled Streets and Landmarks

Original task 2 / independent drawing and calculation

Task 2

A student lists these landmarks: house, shop, park, school, bus stop, friend's house, library, and bakery. They draw streets first, then place landmarks. Their legend shows a square for house and a square for shop. Explain one mistake and how to fix it.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Draw Your Neighborhood Map: Labeled Streets and Landmarks

Original task 3 / independent drawing and calculation

Task 3

A map frame is 18 cm wide. A student wants to show a street that is 360 m long using a scale of 1 cm to 20 m. Will the street fit on the paper? Show your arithmetic.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Draw Your Neighborhood Map: Labeled Streets and Landmarks

Original task 4 / independent drawing and calculation

Task 4

A student draws a map with labels that overlap and uses three different lettering styles. Their scale says '1 cm = 10 m' but they measured one distance as 3 cm and wrote '30 km'. Identify two problems and give a fix for each.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
