Bear Skull from Above: Crest and Molar Row Drawing Guide

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

Bear Skull from Above: Crest and Molar Row Drawing Guide

Worked example / complete source key

On a 16 cm by 20 cm rectangle, place a midline crest 6 cm long and three molar marks per side at 1.5 cm intervals starting 2 cm from the midline. State the row length and the distance from the midline to the last molar.

Answer: The crest runs 6 cm along the midline. Molar centers are at 2 cm, 3.5 cm, and 5 cm from the midline. The row length is 3.5 minus 2 plus 5 minus 3.5, which equals 3 cm. The last molar is 5 cm from the midline.
