Bear Skull from Above: Crest and Molar Row Drawing Guide

Original tasks 1, 2 / independent work

Task 1

A skull rectangle is 14 cm wide and 18 cm tall. Divide the height into three equal bands. State each band height and the total of the three bands.

Task 2

Molar centers are placed at 1.5 cm, 3 cm, and 4.5 cm from the midline. What is the row length, and what is the interval between adjacent molars?

Bear Skull from Above: Crest and Molar Row Drawing Guide

Original tasks 3, 4 / independent work

Task 3

A crest is drawn 0.8 cm wide at the rear and 0.4 cm wide at the front. What is the width change, and what is the average of the two widths?

Task 4

A drawing uses a 1 cm to 1 cm scale. The drawn molar row is 2.5 cm long. If the scale were changed to 1 cm on the drawing equals 2 cm on the paper, what would the same row represent?
