Draw a Cartoon Person Exercising While Listening to Music

Original worked example / unchanged complete key

Prompt: Draw a cartoon figure doing a jumping jack with headphones. Use a 4 cm head circle, a 5 cm by 3 cm torso, and two-segment limbs. Show the band over the head and cups on the ears.

Answer: A finished drawing shows a circle head with a curved band from ear to ear and two oval cups centered on the horizontal midline. The torso is a rounded rectangle. Both arms angle up and out from the shoulders, and both legs angle down and out from the hips. Joint dots at elbows and knees are visible in the construction stage. The pose reads as a jumping jack when the headphones are covered, and the headphones read clearly when the pose is covered.
