# Closet Contour Drawing: Hangers, Clothes, and Shelf Edges

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

# Closet Contour Drawing: Hangers, Clothes, and Shelf Edges

Worked example / complete source key

A closet opening measures 120 cm wide and 200 cm high. The top shelf edge is 40 cm below the top. The rod is 30 cm below the shelf. Draw the outer rectangle, shelf edge, and rod line to scale on a page where 1 cm represents 10 cm.

Answer: On the page, the rectangle is 12 cm wide and 20 cm high. The shelf edge is a horizontal line 4 cm below the top. The rod is a horizontal line 3 cm below the shelf, so it is 7 cm below the top. All lines are drawn as single continuous contours, and no hidden edges are added.
