Draw a Simple Heart: Two Mirrored Curves and Tracing Practice

Original task 1 / independent drawing and calculation

Task 1

Draw a vertical guide line 8 cm long. Mark a top center point and a bottom point. Draw a left lobe that reaches 2 cm to the left of the guide line and a right lobe that reaches 2 cm to the right. Connect the bottom ends with a gentle point. Check that both lobes start at the top center point.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Draw a Simple Heart: Two Mirrored Curves and Tracing Practice

Original task 2 / independent drawing and calculation

Task 2

Trace a dotted heart outline that is 6 cm wide and 6 cm tall. Trace the left lobe first, then the right lobe, then the bottom point. After one trace, describe one place where your pencil drifted from the dots.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Draw a Simple Heart: Two Mirrored Curves and Tracing Practice

Original task 3 / independent drawing and calculation

Task 3

In a blank box 10 cm by 10 cm, draw three freehand hearts: one slow and careful, one at normal speed, and one small version about 4 cm wide. Use a light vertical guide line for each. Check that each heart has two lobes and a bottom point.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Draw a Simple Heart: Two Mirrored Curves and Tracing Practice

Original task 4 / independent drawing and calculation

Task 4

Draw a heart with a top center point and a bottom point. Make the left lobe reach 3 cm from the guide line and the right lobe reach 2 cm. Then redraw the heart so both lobes reach 2.5 cm. Describe the difference between the two attempts.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
