How to Draw a Mouth in Side Profile: Lip Projection and Jaw Alignment

Original task 1 / independent drawing and calculation

Task 1

Lip height is 10 units. Mark the lip midline and state its distance from the upper lip crest.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

How to Draw a Mouth in Side Profile: Lip Projection and Jaw Alignment

Original task 2 / independent drawing and calculation

Task 2

The mouth corner is 3 units behind the chin front. The upper lip projects 1 unit and the lower lip projects 2 units. State the total forward span from corner to lower lip base.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

How to Draw a Mouth in Side Profile: Lip Projection and Jaw Alignment

Original task 3 / independent drawing and calculation

Task 3

A drawing shows the upper lip projected 2 units and the lower lip projected 1 unit, with lip height 6 units. Identify one likely construction error and one fix.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

How to Draw a Mouth in Side Profile: Lip Projection and Jaw Alignment

Original task 4 / independent drawing and calculation

Task 4

The closure line drifts 2 units away from the jaw alignment. State a checkable adjustment using lip height 8 units.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
