How to Draw a Panda Easy Worksheet: Sequenced Step Boxes

Original tasks 1, 2 / independent work

Task 1

In a new set of boxes, draw stage 1 as one head circle and stage 2 as two ear circles. Repeat both stages in blank boxes R1 and R2. Then state the shape count for stage 2.

Task 2

Draw stage 3 as one body oval below the head circle, then stage 4 as two arm ovals and two leg ovals. In the repeat boxes, what total shape count should R4 show if the head circle, two ear circles, body oval, two arm ovals, and two leg ovals are all present?

How to Draw a Panda Easy Worksheet: Sequenced Step Boxes

Original tasks 3, 4 / independent work

Task 3

A learner draws stage 5 with two eye patches, one nose, and one mouth curve. In R5 they draw two eye patches and one nose but no mouth curve. What is the missing shape, and what is the corrected stage 5 feature count?

Task 4

In stage 6, add one tail and two paw lines, then erase overlap lines. If the final repeat box R6 shows one head circle, two ear circles, one body oval, two arm ovals, two leg ovals, two eye patches, one nose, one mouth curve, one tail, and two paw lines, what is the total shape tally?
