How to Draw a Panda Easy Worksheet: Sequenced Step Boxes

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

How to Draw a Panda Easy Worksheet: Sequenced Step Boxes

Worked example / complete source key

A learner draws stage 1 as a head circle in box 1, then repeats it in R1. In stage 2 they draw two ear circles in box 2, but in R2 they draw only one ear circle. What should they do next, and what check confirms the fix?

Answer: They should erase the single ear circle in R2 and draw two ear circles to match box 2. Then they count the ear circles in box 2 and in R2: both should be two. They also check placement with a vertical midline: one ear on each side of the head circle. This confirms the repeat box matches the current stage before moving to stage 3.
